

**FOR IMMEDIATE RELEASE**

## **ANOTHER BOAT HAS BEEN HIT IN A SUSPECTED DRONE ATTACK**

**September 9th, 2025**

The Global Sumud Flotilla (GSF) confirms that on September 9, another boat in our fleet - the "Alma" - was attacked by a drone as it was docked in Tunisian waters. The boat, sailing under the British flag, sustained fire damage on its top deck. The fire has since been extinguished, and all passengers and crew are safe. An investigation is currently underway and when more information is available it will be released immediately.

This marks the second such attack in two days. These repeat attacks come during intensified Israeli aggression on Palestinians in Gaza, and are an orchestrated attempt to distract and derail our mission. The Global Sumud Flotilla continues undeterred. Our peaceful voyage to break Israel's illegal siege on Gaza and stand in unwavering solidarity with its people presses forward with determination and resolve.
